# CLEANLOAD NEXUS

## The Proven Closed Transfer Coupler

For farmers using containers with easyconnect caps, Cleanload Nexus delivers fast, safe and compliant transfer of crop protection products.

It's a field-proven Closed Transfer Coupler, designed to help you meet new regulations with ease and confidence.

### FEATURES & BENEFITS

- ▶ **Fast & Efficient**  
Empty agrochemical containers in seconds with a simple turn of the handle without unscrewing a cap or glugging.
- ▶ **Safe & Compliant**  
Reduces the risk of splashing and spilling chemical onto the operator or ground during filling.
- ▶ **Simple & Reliable**  
Manually operated mechanical device, no electronics. Compatible with volumetric measure systems.
- ▶ **Powerful Cleaning**  
Dual rinse jets remove even the stickiest residues, ensuring containers are fully cleaned and sealed.
- ▶ **Proven Compatibility**  
Works seamlessly with easyconnect caps from all major agrochemical manufacturers, tested and validated through multiple European field trials.

### GET READY TODAY FOR TOMORROW'S REGULATIONS

**From January 2027, closed transfer systems will be mandatory in the Netherlands.**

Cleanload Nexus is ready today: proven, compatible and easy to retrofit on existing sprayers.

- ▶ Helps farmers and distributors stay compliant ahead of regulation.
- ▶ Retrofit-ready design works with current equipment.
- ▶ Supported by Pentair's training and service network across Europe.
